

Linda C. Gallo, Ph.D.

Curriculum Vitae

Office Address:

San Diego State University
9245 Sky Park Court, Suite 105
San Diego, CA 92123

Telephone: 619-594-8387

Fax: 619-594-6780

E-Mail: lcgallo@sciences.sdsu.edu

UNIVERSITY EDUCATION

The University of Pittsburgh (1998-2000)
Postdoctoral Fellowship, Cardiovascular Behavioral Medicine
Major Advisor: Karen A. Matthews, Ph.D.

The University of Utah (1992-1998)
Master of Science, Doctorate of Philosophy
Clinical Psychology with Health Psychology Specialty
Major Advisor: Timothy W. Smith, Ph.D.

Southern Illinois University (1987-1989)
Bachelor of Arts, Psychology

University of Illinois (1985-1987)
Pre-Medicine Coursework

LICENSURE: Pennsylvania board of Psychology License PS009167-L (Status Inactive)

POSITIONS AND RANKS HELD

Department of Psychology, San Diego State University

Professor (2011-Present)
Associate Professor (2006-2011)
Assistant Professor (2001-2006)

Graduate School of Public Health, San Diego State University

Adjunct Professor (2011-Present)
Adjunct Associate Professor (2008-2011)
Senior Core Investigator, Institute for Behavioral and Community Health, (2004-Present)

Department of Psychology, Kent State University, Assistant Professor (2000-2001)

AWARDS AND HONORS

2013, Most Influential Faculty Member, SDSU/UCSD Joint Doctoral Program in Clinical Psychology

2012, Appointed Fellow, American Psychological Association

2012, Appointed Fellow, Division 38, Health Psychology, American Psychological Association

2010, Elected to Membership, Academy of Behavioral Medicine Research

2009, Appointed Fellow, Society of Behavioral Medicine

2008, American Psychological Association Distinguished Scientific Award for Early Career Contribution to Psychology (in area of Health Psychology)

2008, 'Top 25' Awardee for Contributions to the University, Office of the President, San Diego State University

2005, Early Career Honorary Recognition Award, Society of Behavioral Medicine

2004-2010, Network Associate of the MacArthur Foundation Research Network on Socioeconomic Status and Health (recognition for young scholars who have made a substantial contribution to the Network's research agenda)

2004, Outstanding Contribution to Health Psychology, American Psychological Association, Division 38, Young Investigator Award

GRANTS AND FELLOWSHIPS

External Grants and Fellowships, Current

NIH/NCATS UL1 TR001114-01 (Topol, PI) 04/01/13 – 03/30/18
Role: Co-I (beginning 04/01/14)

Clinical Translational Science Award, Community Engagement Key Function.

Description-development and training of, community-engaged clinical research principles and projects within the research program at Scripps Translational Science Institute, San Diego Community Health Centers and across CTSA sites nationwide.

NIH/NHLBI 2R56HL081604 (Gallo, PI) 09/20/13 – 08/31/14

Sociocultural Factors and Cardiometabolic Risk in Mexican-American Women

The main goal of this project is to conduct formative research to support the development and pilot testing of a culturally appropriate resource building health promotion intervention for midlife Latinas at risk for cardiovascular disease.

NIH/NHLBI HHSN2682013000051 (Talavera, PI) 06/01/13 – 05/31/19

Hispanic Community Health Study-Study of Latinos (HCHS-SOL) San Diego Field Center

Role on Project: Co-Investigator

This is a multi-site prospective cohort study of 4,000 Latinos in San Diego, and 16,000 Latinos across four U.S. field centers. The major goals are to identify putative causes for diseases and conditions highly prevalent in Latinos (e.g. diabetes, left ventricular hypertrophy, and gestational

diabetes mellitus), describe the transformation of health-related risk and protective factors related to migration, acculturation, and length of time living in the U.S., and assess the impact of changes in socioeconomic factors, cultural values, risk

NIH/NIDA 1 K01 DA029041 (Businelle, PI)

07/01/12-06/30/17

Socioeconomic Disparities in Smoking Cessation: Understanding the Mechanisms

Role on the Project: Co-Mentor

The aims of the proposed project are to refine a model of mediators in the relationship between socioeconomic status and smoking cessation using structural equation modeling techniques, and to examine the contribution of psychosocial pathways in the relationship between socioeconomic status and smoking cessation using ecological momentary assessment techniques. The candidate's long-term goal is to develop an independent research career focused on identifying pathways through which socioeconomic status influences smoking cessation and to develop and disseminate culturally appropriate interventions that address socioeconomic disparities in smoking cessation.

DHHS/CDC 1 U48 DP001917 (Elder and Ayala, PI)

09/30/09 – 09/29/14

San Diego Prevention Research Center: Obesity Prevention and Control in the Latino community

Role on Project: Co-Investigator

This study is an extension of the San Diego Prevention Research Center (SDPRC; John Elder, PI). Investigators from the SDPRC are collaborating with the Mexican Ministry of Health's National Institute of Public Health (Instituto Nacional de Salud Publica, or INSP), the largest chronic disease research entity in Mexico, to conduct research and develop practice-based networks focused chronic disease prevention, and particularly obesity, with Mexican and U.S.-based Latino-focused counterparts. These applications will include local, regional and international efforts on both sides of the US-Mexico border, and beyond.

NIH/NHLBI 1 R25 HL105430 (Elder, PI)

09/25/10 – 07/31/14

PRIDE – Investing in America's Future: Mentoring Latinos in Health Disparities Research

Role on Project: Co-Investigator

The purpose of this project is to bring researchers accomplished in Latino community health research (mentors) together with aspiring younger researchers (mentees) to optimize the chances of research success and advancement among the latter and prepare them in turn to train the next generation of individuals who will be working in Latino health. To advance the scientific career development of the young faculty and investigators, the mentoring team is offering a series of trainings and activities focused on Latino health and health disparities research as related to CVD and other conditions associated with CVD risk factors.

NIH/NIMHD 1 R25 MD006853 (Elder, PI)

07/14/11 – 03/31/16

Role on Project: Co-Investigator

Mentoring Diverse Students in Health Disparities Research (IMPACT)

This 5-year IBACH training and mentoring program will enroll a total of 40 undergraduate and graduate students underrepresented in research to pursue higher level academic or career opportunities that contribute to reducing health disparities.

ACS Mentored Research Scholar Grant (Kendzor, PI)

07/01/11 – 06/30/15

Pathways Between Socioeconomic Status and Behavioral Cancer Risk Factors

Role on the Project: Co-Mentor

The primary aim of this project is to test a conceptual model of the relationship between socioeconomic status and health behavior, and to identify proximal mediators of health behavior using ecological momentary assessment technology.

External Grants and Fellowships, Completed

The Stanford Center on Poverty and Inequality (CPI) 1/15/13 – 12/31/13
Oregon State University with a subcontract to SDSU, (Lopez-Cevallos, PI)

Subjective Social Status, Wealth, Occupational Mobility, and Health Among Hispanic/Latinos

Role on Project: Mentor

The purpose of this study is to analyze the associations between subjective social status, wealth, and immigrant occupational mobility with subjective and objective health outcomes among Hispanic/Latino adults of diverse backgrounds using baseline data from the Hispanic Community Health Study/ Study of Latinos (HCHS/SOL), which is the largest contemporary cohort study of over 16,000 Hispanic/Latinos across four cities in the United States (Bronx, NY, Chicago, IL, Miami, FL, San Diego, CA).

NIH/NIMHD 1 P20 MD002293 (Talavera, PI) 09/30/07 – 12/31/13

San Diego Partnership to Reduce Diabetes & CVD in Latinos (“LUNA Study”)

Role on the Project: Co-Investigator

The goal of the South Bay Latino Research Center of Excellence is to reduce CVD disparities in a largely Latino community located in the border region of San Diego by fostering community-based research, and to expand research and training infrastructure and increase the number of underrepresented investigators in the areas of minority health and health disparities. Currently, the researchers are performing a randomized clinical trial to test a culturally tailored, nurse and peer-education intervention to improve adherence and health behaviors, to ultimately reduce CVD risk in uninsured Latinos presenting with multiple CVD risk factors.

Scripps Whittier Institute for Diabetes (Gallo, PI) 06/01/12 – 09/30/13

Scripps Enhancing Collaborative Community Research

Role on the Project: PI

The award from the Scripps Research Institute is designed to support enhanced opportunities for collaboration and research related to community engagement and risk reduction in medically underserved San Diego populations. In particular, efforts will focus on improving patient care and enhancing prevention programs for community segments at risk for, or diagnosed with, type 2 diabetes mellitus. Dr. Gallo is the Consortium-PI at San Diego State University.

NIH/NHLBI HHSN268200625237C (Talavera, PI) 09/30/06 – 05/31/13

San Diego Hispanic Community Health Study/Study of Latinos

Role on Project: Co-Investigator

This multi-site study of 16,000 Hispanics across 4 United States field sites will ascertain the prevalence and risk factors for multiple conditions including cardiovascular disease (CVDs), diabetes, obesity, asthma, chronic obstructive pulmonary disease, kidney disease, liver disease, sleep disorders, dental disease, hearing impairment, and cognitive function. By contributing to the understanding of risk factors that significantly influence the conditions disparately affecting Latinos, the research seeks to reduce morbidity and premature mortality in this growing segment of the U.S. population.

NIH/NCRR 1 U01 RR025774 (Topol, PI) 05/01/08 – 04/30/13

Scripps Translational Science Institute (STSI)

Role on the Project: Consortium Principal Investigator

The goal of this award from the NIH NCRR's Clinical Translational Science Award (CTSA) initiative is to create a center that will develop infrastructure for, and pursue research in, translational biomedical science. Dr. Gallo is involved in community outreach and, in particular, attempts to engage the community in research and prevention efforts designed to link laboratory science discoveries with community-based diabetes risk reduction efforts.

NIH/NCRR 5 UL1 RR025774 (Topol, PI)

09/24/09 – 09/23/12

Scripps Translational Science Institute (STSI) – ARRA Supplement (“Dulce Mothers”)

Role on the Project: Consortium Principal Investigator

The overarching goal of this administrative supplement is to enhance the Community Engagement program within the Scripps Translational Science Institute (see below). More specifically, the study will adapt and pilot a peer-administered group education curriculum based on the Diabetes Prevention Project to help reduce the risk of type 2 diabetes mellitus in uninsured Latinas with recent diagnoses of gestational diabetes.

NIH/NHLBI 1 RC2 HL101649 (Gallo and Penedo, PIs)

09/30/09 – 07/31/12

Ancillary to HCHS/SOL: Sociocultural Factors and CVD risk/prevalence in Hispanics

Role on the Project: Principal Investigator

The purpose of this study is to examine associations among sociocultural and psychological risk and protective factors in relation to metabolic syndrome and CVD prevalence in a sub-sample of 5,280 participants from the multi-site Hispanic Community Health Study (HCHS)/Study of Latinos (SOL). The ultimate goal is to contribute to the HCHS/SOL's aims of guiding future prevention and intervention efforts for the US Hispanic population, and for distinct Hispanic subgroups.

NIH/NHLBI 1 R01 HL081604 (Gallo, PI)

06/01/06 – 05/31/12

Cardiovascular Risk Disparities: Socio-Emotional Pathways (“Nuestra Salud”)

Role on the Project: Principal Investigator

This study is designed to investigate the roles of socioeconomic and psychosocial factors in cardiometabolic risk in 300 Mexican-American women from the South San Diego area. Women participated in a comprehensive assessment of stress, psychosocial risk and resilient factors, and bio-behavioral markers of cardiovascular risk, and underwent a 2-day assessment of momentary psychosocial experiences and ambulatory blood pressure. The overarching goal is to inform intervention efforts that focus on behavioral and psychosocial pathways.

NIH/NHLBI 1 F31 HL087732 (Espinosa de los Monteros, PI)

06/01/07 – 05/31/11

Cultural Factors and the Metabolic Syndrome in Mexican-American Women

Role on the Project: Mentor/Sponsor

This pre-doctoral fellowship awarded to Karla Espinosa de los Monteros supported training activities and research focused on associations among cultural factors, the metabolic syndrome, and related behavioral risk factors in Mexican-American women.

NIH/NIDDK 1 R18 DK070666 (Phillis-Tsimikas, PIs)

09/01/06 – 08/31/10

Incremental Clinical/Cost Effect of RN/Peer (Project Dulce)

Role on Project: (Site) Principal Investigator

This was a randomized trial of a culturally-sensitive diabetes care model involving a group peer education among un- and under-insured Latinos residing in San Diego County. The intervention focuses on building resources at multiple levels to improve self-management and clinical outcomes. The overarching goal is to contribute to the design of effective delivery systems that

respond to the unprecedented increases in the prevalence of chronic disease in this population. The data from this study have been reported at regional and national conferences, and several related manuscripts have been published.

NIH/NCI 1 R21 CA112368 (Talavera, and Yepes-Rios, PIs) 03/01/05 – 02/28/08

Colorectal cancer screening in primary care practice (Pregunta de Poli)

Role on the Project: Co-Investigator

This randomized trial addressed the social, cultural and system-level barriers to colorectal cancer screening among Latinos. The study sought to isolate the critical knowledge and behavioral skills necessary to empower this growing segment of the U.S. population to obtain appropriate screening procedures. The data from this study have been reported at multiple national conferences, and a manuscript reporting the results has been published.

External Grants and Fellowships, Pending

NIH/NIDDK 1R18 (Phillis-Tsimikas, Gallo) 12/01/14 – 11/30/19

Medical Assistant Health Coaching for Diabetes in Diverse Primary Care Settings

This study will evaluate the Medical Assistant Health Coaching (MAC) program, a brief, primary care-based, self-management support intervention that seeks to improve clinical control, self-care and psychosocial outcomes in individuals with poorly controlled type 2 diabetes. The significant increase in diabetes prevalence has taxed the US healthcare system, while significantly reducing quantity and quality of life for millions of individuals. By offering a pragmatic approach to managing the complex needs of patients with diabetes in existing primary care models, the MAC program has strong potential to significantly impact public health.

NIH/NINR 1 R01 NR 014866 (Talavera) 04/01/14 – 3/31/19

Latinos Understanding the Need for Adherence in Diabetes (LUNA-D)

Role on the Project: Co-Investigator

The major goals of this project are to improve diabetes management services for Latino adults at a federally-qualified community health center that currently has over 8,000 diabetic patients. Latinos Understanding the Need for Adherence in Diabetes (LUNA-D), is a randomized trial that will test the effectiveness of a tailored chronic care disease management intervention for low income Latinos with diabetes accessing care within San Ysidro Health Center, Inc. (SYHC).

R01 NIH/NIA (Gonzalez) 07/1/14 – 06/30/19

SOL Neurocognitive Ancillary Study.

Role on the Project: Co- Investigator

This study will examine the prevalence and progression of cognitive impairment in participants (45 years and older) from the HCHS/SOL, and will examine the association of cognitive impairment with CVD risk factors.

R01 NIH/NINDS (Lisbeth, Morgerstern) 07/1/14 – 06/30/19

Caregiving in Mexican American Stroke

Role on the Project: Co- Investigator

The study will examine informal caregiving at home and social-cultural predictors of caregiver outcomes among post-stroke Mexican Americans and non-Hispanic whites in a population-based study.

R01 NIH/NIMHD (Strong) 07/1/14 – 06/30/18

Pathways linking acculturation and obesity risk in Mexican Americans.

Role on the Project: Co- Investigator

The study will examine social-cultural factors in obesity and changes in body mass index over time in Mexican American adults enrolled in the Mexican American Cohort Study.

Internal Grants and Fellowships

San Diego State University Research Scholarship and Creative Activity Mini-Grant: Psychosocial Factors in Health and Health Disparities. Awarded 12/05.

San Diego State University Minority Research Infrastructure Support Program Mini-Grant: Social-emotional factors and socioeconomic and ethnic disparities in cardiovascular health. 11/01/03-10/31/04.

San Diego State University Grant-In-Aid: Socioeconomic status, social experiences, and health. 02/01/02-09/30/03.

Kent State University Summer Research and Creativity Activity Award: An ambulatory investigation of the role of psychosocial resources in the association between socioeconomic status and cardiovascular health. 06/01/01-08/01/01.
